Insurance Employment Forecast

(Source: Bureau of Labor Statistics: Occupational Outlook Handbook, 2006-2007)

- Employment of underwriters is expected to grow by up to 8% through 2014. The slower-than-average growth is due mostly to the development of underwriting software that makes workers more productive.
- Employment of claims adjusters, appraisers, examiners, and investigators is expected to demonstrate average growth among industries at a rate between 9% and 17%. Many insurance carriers are downsizing their claims staff in an effort to contain costs, utilizing customer service representatives to record necessary details instead.
