**Real Estate & Building Maintenance Employment Forecast
(Source: Bureau of Labor Statistics: Occupational Outlook Handbook, 2004-2005)**

- Some growth in employment of real estate agents and brokers is expected through 2012, as demand for properties increases due to population growth and the popular perception that real estate is a good investment.
- As the population ages and families become more pressed for time, employment for maintenance of residential properties will increase more than that for the overall industry.
